JL: I've just gotten to FH's 5/24/75, which you just sent, he having sent the copy to me to you. I don't feel like writing him any further for a while, especially not after some of the infantilism in this, like the Nosenko documents were declassified 2 and 3/75 because he asked for them without response almost a year earlier! He refers to several in the 1973 release. I don't think I have them. It would be good to have them and the Coleman-Slawson memo "relating to foreign involvement" he referred to. I do not want to ask Archives because they did not give them to me(the earlier Nosenkos) in response to my request. Do you have a list of the 1973 release? I don't remember seeing any. FH calls it "big." I'd like to have a full Nosenko file because it can make a story and in the end I'll want it for Agent Oswald. Thanks, HW 6/8/75
